Disclosures

The GIPS Composite Report for the Helix Strategy can be found in the Appendix.

The information set forth herein has been obtained or derived from sources believed by AQR Capital Management, LLC ("AQR") to be reliable. However, AQR does not make any representation or warranty, express or implied, as to the information's accuracy or completeness, nor does AQR recommend that the attached information serve as the basis of any investment decision. This document has been provided to you solely for information purposes and does not constitute an offer or solicitation of an offer, or any advice or recommendation, to purchase any securities or other financial instruments, and may not be construed as such. This document is intended exclusively for the use of the person to whom it has been delivered by AQR and it is not to be reproduced or redistributed to any other person. Please refer to the Appendix for more information on risks and fees. **Past performance does not predict future returns.**

This presentation is not research and should not be treated as research. This presentation does not represent valuation judgments with respect to any financial instrument, issuer, security or sector that may be described or referenced herein and does not represent a formal or official view of AQR.

The views expressed reflect the current views as of the date hereof and neither the speaker nor AQR undertakes to advise you of any changes in the views expressed herein. It should not be assumed that the speaker will make investment recommendations in the future that are consistent with the views expressed herein, or use any or all of the techniques or methods of analysis described herein in managing client accounts. AQR and its affiliates may have positions (long or short) or engage in securities transactions that are not consistent with the information and views expressed in this presentation.

The information contained herein is only as current as of the date indicated, and may be superseded by subsequent market events or for other reasons. Charts and graphs provided herein are for illustrative purposes only. The information in this presentation has been developed internally and/or obtained from sources believed to be reliable; however, neither AQR nor the speaker guarantees the accuracy, adequacy or completeness of such information. Nothing contained herein constitutes investment, legal, tax or other advice nor is it to be relied on in making an investment or other decision.

There can be no assurance that an investment strategy will be successful. Historic market trends are not reliable indicators of actual future market behavior or future performance of any particular investment which may differ materially, and should not be relied upon as such. Target allocations contained herein are subject to change. There is no assurance that the target allocations will be achieved, and actual allocations may be significantly different than that shown here. This presentation should not be viewed as a current or past recommendation or a solicitation of an offer to buy or sell any securities or to adopt any investment strategy.

The information in this presentation may contain projections or other forward-looking statements regarding future events, targets, forecasts or expectations regarding the strategies described herein, and is only current as of the date indicated. There is no assurance that such events or targets will be achieved, and may be significantly different from that shown here. The information in this presentation, including statements concerning financial market trends, is based on current market conditions, which will fluctuate and may be superseded by subsequent market events or for other reasons. Performance of all cited indices is calculated on a total return basis with dividends reinvested.

The investment strategy and themes discussed herein may be unsuitable for investors depending on their specific investment objectives and financial situation. Please note that changes in the rate of exchange of a currency may affect the value, price or income of an investment adversely.

Neither AQR nor the speaker assumes any duty to, nor undertakes to update forward looking statements. No representation or warranty, express or implied, is made or given by or on behalf of AQR, the speaker or any other person as to the accuracy and completeness or fairness of the information contained in this presentation, and no responsibility or liability is accepted for any such information. By accepting this presentation in its entirety, the recipient acknowledges its understanding and acceptance of the foregoing statement.

AQR Overview

Our Firm

Source: AQR. Approximate assets under management as of March 31, 2025. 'AQR UCITS Funds' includes AQR UCITS Funds and AQR UCITS Funds II, further information for which can be found in the prospectuses. Please note that the Total UCITS Fund AUM is representative of all AQR UCITS Funds, which includes funds not included in the table above. Information on the AQR Strategies is provided for information purposes only to illustrate the investment process. Performance and investments of the AQR UCITS Funds will differ from the AQR Strategies and therefore historic data should be interpreted accordingly. Strategy launch dates above refer to the inception of AQR's first standalone version of the respective strategies and is not necessarily representative of the launch of the UCITS Fund. Strategy AUM includes assets under management for all implementations of the respective overarching AQR strategies. AQR Sustainable Delphi Long-Short Equity strategy AUM includes assets under management for all implementations of AQR's global stock selection total return strategies. AQR Style Premia: Sustainable Global Equity strategy AUM includes assets under management for all implementations of AQR's suite of multi-style equity strategies. The AQR Systematic Total Return UCITS Fund was renamed to the AQR Apex UCITS Fund on April 25, 2024. The AQR Sustainable Delphi Long-Short Equity UCITS Fund was renamed to AQR Delphi Long-Short Equity UCITS Fund on March 28, 2025. The AQR Sustainable Corporate Arbitrage UCITS Fund was renamed to the AQR Corporate Arbitrage UCITS Fund on August 24, 2023. The AQR Delphi Global Equities UCITS Fund was renamed to the AQR Sustainable Delphi Global Equities UCITS Fund on February 2, 2021. The AQR Sustainable Emerging Relaxed Constraint Equity UCITS Fund was renamed to AQR Emerging Equity Extension UCITS Fund on March 28, 2025. The AQR Style Premia: Global Equity UCITS Fund merged with the AQR Style Premia: Sustainable Global Equity UCITS Fund on September 25, 2020 and was renamed to AQR Sustainable Style Premia Global Equity UCITS Fund. The inception date for the Apex UCITS Fund mirrors the inception date of the Systematic Total Return UCITS Fund. Fund offering documents contain risk warnings that are specific to each fund. Investors should only invest in a fund once they have thoroughly reviewed the prospectus and Key Investor Information Document ("KIID") for the fund and carefully considered the relevant investment objectives, risks, charges and fees. Investors may wish to consult an independent financial advisor for personal and specific investment advice before investing. Please note that investments to some vehicles may be restricted.

Correlation to Global 60/40	**-0.20**	**-0.20**	

Source: AQR, Bloomberg. All performance figures are for the AQR Alternative Trends UCITS Fund and represent preliminary unaudited estimates of net realized and unrealized returns prepared by AQR Capital Management, LLC ("AQR") and are in USD unless noted otherwise. Past performance does not predict future returns. Net returns are net of a 1.5% management fee, a 0.25% administrative and operating fee, and a 20% performance fee per annum (USD). The Global 60/40 has 60% invested the MSCI World Net Total Return USD Index and 40% invested in the Bloomberg Barclays Global Aggregate Total Return Index. The ICE BofAML U.S. 3-Month Treasury Bill is the risk-free rate used to derive the Sharpe ratio. Please note performance fees are charged over a cash hurdle measured by the ICE BofAML U.S. 3-Month Treasury Bill Index for the USD share class. The Fund is actively managed, which means that the investments are selected at the discretion of AQR. The Fund is not managed in reference to a benchmark Please read important disclosures at the end of this document.

Key Risks Related to the Alternative Trends UCITS Fund

The Fund may use derivatives for investment purposes. It may be that the use of derivatives may not always be successful and cause share prices to fluctuate which may in turn result in loss to the Fund.

The Fund is exposed to the currency markets which may be highly volatile. Large price swings can occur in such markets within very short periods and may result in your investment suffering a loss.

The Fund may enter into one or more derivatives with a counterparty. There is a risk that this party may fail to make its payments or become insolvent which may result in the fund and your investment suffering a loss.

The Fund may be exposed to liquidity risk where, due to a lack of marketability, the Fund's investments cannot be bought or sold quickly enough to prevent or minimise a loss.

The decision to invest in the Fund should take into account all the characteristics or objectives of the Fund as described in its prospectus.

Fund Overview

What is an “Alternative Asset”?

There are barriers to entry

Alternative assets are generally **harder to access** than traditional assets. They might have one or more of these qualities:

- Lower capacity
- Traded on niche exchanges
- Fewer counterparties providing access
- Voice / OTC traded
- Unable to be traded directly

Source: AQR. Please read important information in the Disclosures.

Implementation

Focused on Alternative Assets

Diversified across differentiated asset categories

Equity Factors

Economic Trend Following Capitalizes on Under-Reaction

Apply broadly, across multiple asset classes and economic themes

Go long assets with improving fundamental trends (i.e., good news), short assets with worsening fundamental trends (i.e., bad news)

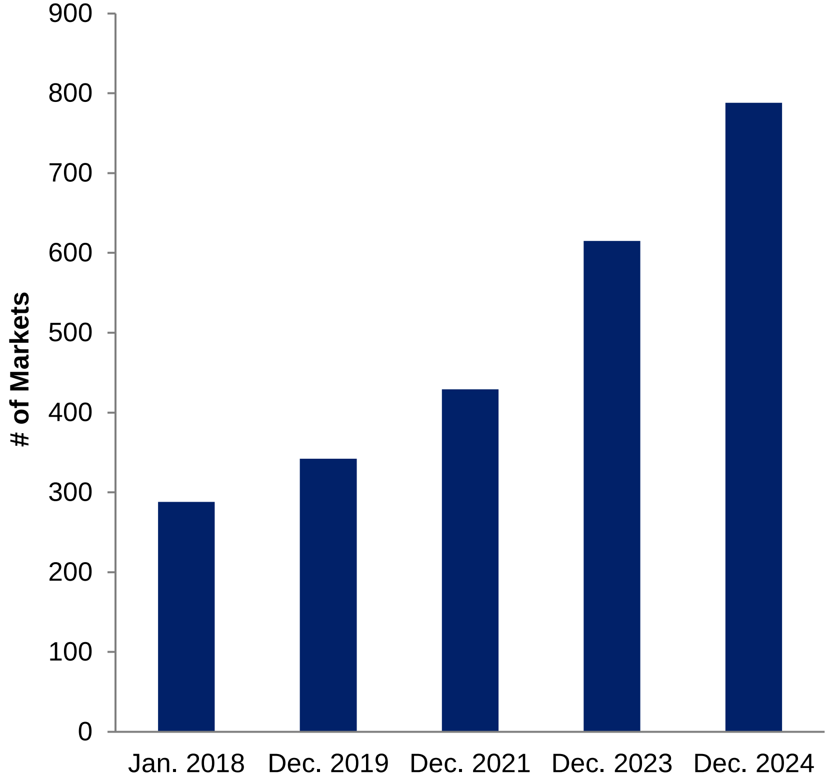
		Direction			
Theme	***Signal Example***	**Credit**	**Interest Rate Swaps**	**Currencies**	**Commodities**
Growth	*Positive growth forecast revisions*	+	–	+	+
Inflation	*Positive inflation surprises*	–	–	+	+
International Trade	*Export-weighted currency depreciation*	+	–	–	–
Monetary Policy	*Declining two-year yields*	+	+	–	+
Risk Aversion	*Tightening credit spreads*	+	–	+	+
Asset Class-Specific Fundamentals	*E.g., Increasing Inventories*	+/–	+/–	+/–	–

Source: AQR. For illustrative purposes only and not representative of an actual portfolio AQR manages. For commodities the themes are consumption-weighted (i.e., the signals apply to consuming countries of that commodity).

Over Time We Have Expanded the Opportunity Set

We expect continued expansion going forward

Number of Markets through Time
January 2018 – March 2025



Number of Signals through Time

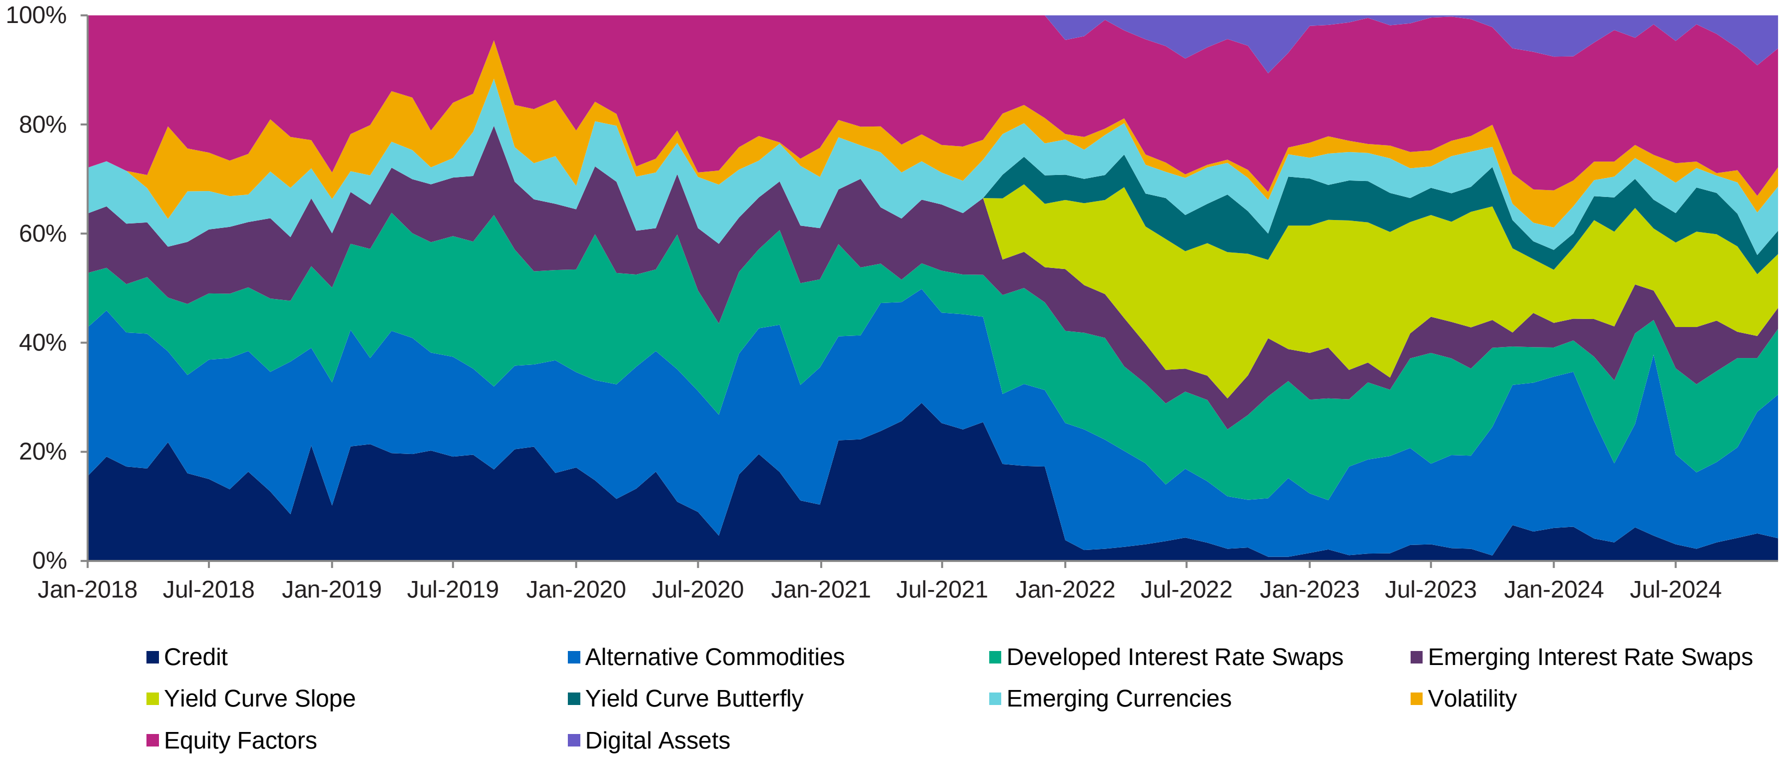
Relative Risk Allocation by Asset Class

Allocate risk dynamically to opportunities

Hypothetical Strategy Asset Class Risk Allocation



Source: AQR. The risk measures contained herein represent risk allocation estimates prepared by AQR from January 1, 2018 – March 31, 2025; risk measures are subject to change at any time without notice. Analysis above is based on the Hypothetical AQR Alternative Trends Moderate Volatility Strategy. Please see the appendix for a description of the Hypothetical AQR Alternative Trends Moderate Volatility Strategy. Risk allocation data shown is hypothetical and for illustrative purposes only. Hypothetical data has inherent limitations, some of which are disclosed in the Appendix. AQR does not currently run the Hypothetical AQR Alternative Trends Moderate Volatility Strategy and there is no guarantee it will come to market or be profitable. Charts are provided for illustrative purposes only. Please read important information in the Disclosures. Target risk is each point in time's volatility estimate. Diversification does not eliminate the risk of experiencing investment losses. There is no assurance that target risk will be realized.

Longer Term Evidence for Alternative Trend Following

Hypothetical AQR Alternative Trends Moderate Volatility Strategy

Performance from January 1, 2018 – March 31, 2025

	Hypothetical AQR Alternative Trends Moderate Volatility Strategy (Net)	SG Trend Index	Cash
Target Volatility	**12%**	**-**	**-**
Q2 2024	0.5%	-3.2%	1.3%
Q3 2024	2.7%	-5.8%	1.4%
Q4 2024	4.5%	0.4%	1.2%
Q1 2025	**2.7%**	**-4.7%**	**1.0%**
2018	-6.1%	-8.1%	1.9%
2019	12.7%	9.2%	2.3%
2020	17.5%	6.3%	0.7%
2021	5.8%	9.1%	0.0%
2022	40.9%	27.3%	1.5%
2023	12.7%	-4.2%	5.0%
2024	15.8%	2.7%	5.3%
2025 YTD	2.7%	-4.7%	1.0%
1 Year	10.8%	-12.7%	5.0%
3 Year (Ann.)	16.3%	0.5%	4.2%
5 Year (Ann.)	17.1%	6.3%	2.6%
7 Year (Ann.)	13.7%	5.4%	2.4%
Since Inception (Ann.)	**13.4%**	**4.7%**	**2.4%**
Realized Volatility	**10.6%**	**12.0%**	
Sharpe Ratio	**1.03**	**0.19**	
Correlation to SG Trend	**0.61**	**1.00**	
Correlation to Global 60/40	**-0.21**	**-0.16**	

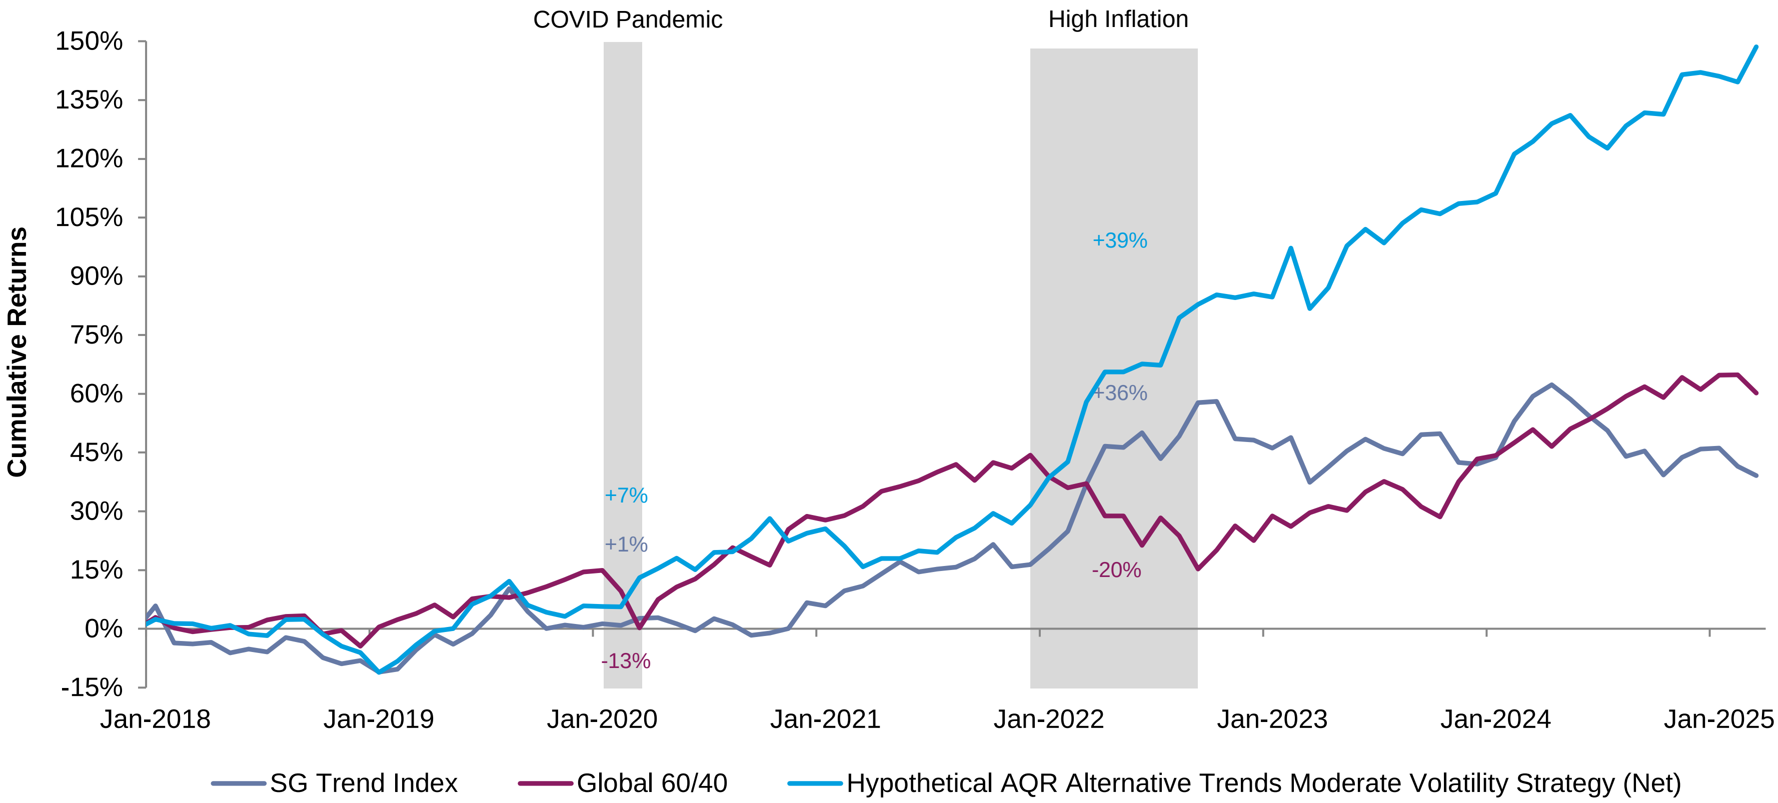
Source: AQR, Bloomberg. All net returns are net of a 1.5% management fee and 20% performance fee (over 3 Month T-bill hurdle) per annum and in USD. Performance for the most recent month end is estimated and subject to change. Please see the appendix for a description of the Hypothetical AQR Alternative Trends Moderate Volatility Strategy. Volatility adjusted performance has been scaled to match a different volatility target and is not the actual performance of the AQR Helix Strategy. All volatility scaled performance is hypothetical and for illustrative purposes only. Hypothetical data has inherent limitations, some of which are disclosed in the Appendix. AQR does not currently run the Hypothetical AQR Alternative Trends Moderate Volatility strategy and there is no guarantee it will come to market or be profitable. The Global 60/40 portfolio has 60% of the portfolio invested in the MSCI World Index and 40% invested in the Bloomberg Barclays Global Aggregate Bond Index. Sharpe ratio is excess of cash. Cash is the ICE BofA 3-Month Bill. Please read important information in the Disclosures.

Alternative Trend Following Has Outperformed

Both absolutely and during traditional market drawdowns

Cumulative Returns

January 1, 2018 – March 31, 2025



Source: AQR, Bloomberg. Net returns are net of a 1.5% management fee and 20% performance fee (over 3 Month T-bill hurdle) per annum and in USD. Please see the appendix for a description of the Hypothetical AQR Alternative Trends Moderate Volatility Strategy. Volatility adjusted performance has been scaled to match a different volatility target and is not the actual performance of the AQR Helix Strategy. All volatility scaled performance is hypothetical and for illustrative purposes only. Hypothetical data has inherent limitations, some of which are disclosed in the Appendix. AQR does not currently run the Hypothetical AQR Alternative Trends Moderate Volatility Strategy and there is no guarantee it will come to market or be profitable. The Global 60/40 Portfolio is based on a 60% weighting on the MSCI World Net Total Return USD Index and 40% weighting on the Bloomberg Barclays Global Aggregate Total Return Index, rebalanced monthly. The SG Trend Index is designed to track the largest 10 (by AUM) CTAs and be representative of the managed futures trend-following space. Past performance does not predict future returns.

Alternative Trend Following Has Generated Attractive Returns

Source: AQR, Bloomberg. Performance in USD. Net returns are net of a 1.5% management fee and 20% performance fee (over 3 Month T-bill hurdle) per annum and in USD. Performance for the most recent month end is estimated and subject to change. The attribution data shown for the Helix Strategy is from a representative account. The representative account was selected as it has the longest track record in the composite. The representative account may not be representative of all Helix portfolios AQR manages. Net attribution is calculated by allocating fees using strategic risk weights and with each component's return divided by sum of total returns for the portfolio. Fees and expenses are not charged to individual investments/sub-strategies, and net attribution is provided for illustrative purposes only to meet regulatory requirements. Different calculation methodologies can result in materially different net returns. Please refer to the AQR Helix Strategy's net performance, which best represents the net performance an investor would have received if they had invested in the AQR Helix Strategy for the periods shown. Attribution is subject to change at any time without notice. Past performance does not predict future returns. Please read important information in the Disclosures.

AQR Alternative Trends UCITS Fund

Key features and differentiators

Why the AQR Alternative Trends UCITS Fund?

1. Diversifying to traditional multi-asset allocations and may **reduce portfolio wide drawdowns**
2. **Alpha strategy** that has a meaningful expected risk-adjusted return
3. **Different than other diversifying strategies,** offering a diversification benefit when added to a return seeking portfolio with other managers.

Why AQR?

1. Over 25 years of experience **managing risk** in alternative systematic strategies through challenging market periods
2. Diversified across 7 asset classes including proprietary **equity factors** that leverage AQR's stock selection capabilities
3. Focus on enhancing the strategy through the addition of new assets and new trend following signals such as those on **fundamental economic data**

Source: AQR. As of March 31, 2025. Investment process subject to change at any time without notice. Diversification does not eliminate the risk of experiencing investment losses. Please read important information in the Disclosures. "Expected" or "Target" returns or characteristics refer to expectations based on the application of mathematical principles to portfolio attributes and/or historical data, and do not represent a guarantee. These statements are based on certain assumptions and analyses made by AQR in light of its experience and perception of historical trends, current conditions, expected future developments and other factors it believes are appropriate in the circumstances, many of which are detailed herein. Changes in the assumptions may have a material impact on the information presented.

This is a marketing communication. Please refer to the Prospectus, KIID and (where applicable) KID for more information on general terms, risks and fees. Investors should only invest in the Fund once they have reviewed the Prospectus, KIID and (where applicable) KID, the most recent versions are available free of charge, in English and in your local language at AQR UCITS Funds, c/o HedgeServ (Luxembourg) 4th Floor, K2 Forte, 2-2a Rue Albert Borschette, L-1246, Luxembourg, along with the annual and semi-annual report and articles (each in English). Investors may wish to consult an independent financial advisor for personal and specific investment advice before investing. Only the information provided in the Prospectus and the KIID is legally binding. Not all share classes are available for investment in all countries. The Prospectus as well as a summary of investor rights are available in English. The relevant KIID is available in Danish, Dutch, English, French, German, Icelandic, Italian, Norwegian, Spanish, Swedish, and depending upon the specific fund, Greek and Portuguese. These documents are available at: https://ucits.aqr.com/

For further information regarding the risks of investing in the Fund please refer to the Risk and Reward section of the KIID and the section of the Prospectus entitled “Risk Factors.”

Please refer to the Prospectus, KIID and (where applicable) KID for more information on fees.

The underlying assets will be owned by the Fund. Investors will own shares in the Fund and will have no direct ownership of the underlying assets.

The information contained herein is for informational purposes only and does not constitute an offer or invitation to buy, sell or otherwise transact in any security. The information on this site is directed only at persons or entities in any jurisdiction or country where such access to information contained herein and use of such information is not contrary to local law or regulation. Accordingly, all persons who access this website are required to inform themselves of and to comply with any such restrictions. The prospectus, KIID and the latest periodic reports for each fund are available free of charge.

The Fund is a sub-fund of AQR UCITS Funds, a Luxembourg based UCITS of which the management company is FundRock Management Company S.A.

Please note that the management company may decide to terminate the arrangements made for the marketing of the Fund in any country where it has been registered for marketing.

The fees and charges paid by the Fund will reduce the return on your investment. Certain costs paid by the Fund may be charged in a currency other than your local currency and exchange rate fluctuations may cause these costs to increase or decrease when converted into your local currency.

AQR is entitled to receive a performance fee in relation to certain share classes of the Fund. Please refer to the prospectus to check if a performance fee is charged on your shares and for further detail of the performance fee calculation method.

Investors should note that UCITS Funds will not trade in commodities.

This document has been provided to you solely for information purposes and does not constitute an offer or solicitation of an offer or any advice or recommendation to purchase any securities or other financial instruments and may not be construed as such. The factual information set forth herein has been obtained or derived from sources believed to be reliable but it is not necessarily all-inclusive and is not guaranteed as to its accuracy and is not to be regarded as a representation or warranty, express or implied, as to the information’s accuracy or completeness, nor should the attached information serve as the basis of any investment decision. This document is intended exclusively for the use of the person to whom it has been delivered and it is not to be reproduced or redistributed to any other person.

There is no guarantee, express or implied, that long-term return and/or volatility targets will be achieved. Realized returns and/or volatility may come in higher or lower than expected. Actual performance figures contained herein reflect the reinvestment of dividends and all other earnings and represent unaudited estimates of realized and unrealized gains and losses prepared by AQR . There is no guarantee as to the above information's accuracy or completeness. **Past performance does not predict future returns.** Diversification does not eliminate the risk of experiencing investment losses.

Gross performance results do not reflect the deduction of investment advisory fees and other expenses, which would reduce an investor’s actual return. AQR’s asset based fees may range up to 2.85% of assets under management, and are generally billed monthly or quarterly at the commencement of the calendar month or quarter during which AQR will perform the services to which the fees relate. Where applicable, performance fees are generally equal to 20% of net realized and unrealized profits each year, after restoration of any losses carried forward from prior years. In addition, AQR funds incur expenses (including start-up, legal, accounting, audit, administrative and regulatory expenses) and may have redemption or withdrawal charges up to 2% based on gross redemption or withdrawal proceeds. Please refer to AQR’s ADV Part 2A for more information on fees. Consultants supplied with gross results are to use this data in accordance with SEC, CFTC, NFA or the applicable jurisdiction’s guidelines.

Disclosures

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM.

ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS. The hypothetical performance results contained herein represent the application of the quantitative models as currently in effect on the date first written above and there can be no assurance that the models will remain the same in the future or that an application of the current models in the future will produce similar results because the relevant market and economic conditions that prevailed during the hypothetical performance period will not necessarily recur. Discounting factors may be applied to reduce suspected anomalies. This backtest’s return, for this period, may vary depending on the date it is run. Hypothetical performance results are presented for illustrative purposes only. In addition, our transaction cost assumptions utilized in backtests, where noted, are based on AQR Capital Management, LLC’s, (“AQR”)’s historical realized transaction costs and market data. Certain of the assumptions have been made for modeling purposes and are unlikely to be realized. No representation or warranty is made as to the reasonableness of the assumptions made or that all assumptions used in achieving the returns have been stated or fully considered. Changes in the assumptions may have a material impact on the hypothetical returns presented. Actual advisory fees for products offering this strategy may vary.

There is a risk of substantial loss associated with trading commodities, futures, options, derivatives and other financial instruments. Before trading, investors should carefully consider their financial position and risk tolerance to determine if the proposed trading style is appropriate. Investors should realize that when trading futures, commodities, options, derivatives and other financial instruments one could lose the full balance of their account. It is also possible to lose more than the initial deposit when trading derivatives or using leverage. All funds committed to such a trading strategy should be purely risk capital.

Disclosures

Sustainable investing is qualitative and subjective by nature, and there is no guarantee that the environmental, social and governance (“ESG”) criteria utilized, judgment exercised, or techniques employed, by AQR will be successful, or that they will reflect the beliefs or values of any one particular investor. Certain information used to evaluate ESG factors or a company’s commitment to, or implementation of, responsible practices is obtained through voluntary or third-party reporting, which may not be accurate or complete. ESG investing can limit the investment opportunities available to a portfolio, such as the exclusion of certain securities or issuers for nonfinancial reasons and, therefore, the portfolio may perform differently than or underperform other similar portfolios that do not apply ESG factors.

Broad-based securities indices are unmanaged and are not subject to fees and expenses typically associated with managed accounts or investment funds. Investments cannot be made directly in an index.

The S&P 500 Index is the Standard & Poor’s composite index of 500 stocks, a widely recognized, unmanaged index of common stock prices.

The SG Trend Index is designed to track the largest 10 (by AUM) CTAs and be representative of the managed futures trend-following space.

The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

The Bloomberg Barclays Global Aggregate Bond Index is a market-weighted index of global government, government-related agencies, corporate and securitized fixed-income investments.

Exchange-traded instruments, which are linked to an underlying virtual currency (“Virtual Currency Derivatives”) may be subject to substantial price volatility. Virtual currency prices are affected by numerous factors, including limited supply, the liquidity of exchanges, the opacity of virtual currency markets, concerns about perceived manipulation of the price and the safety of virtual currencies, market perceptions of the value of virtual currencies as an investment, a shifting regulatory landscape and general lack of regulation with respect to the virtual currency markets, political and economic uncertainties around the world and uncertainties involved in using an early stage technological innovation. A central risk of trading in virtual currencies, and associated Virtual Currency Derivatives, is the rapid fluctuation in their market prices. In addition, the digital nature of virtual currencies and virtual currency exchange markets makes them attractive targets for theft, hacking, cyber-attacks and data breaches. Because transactions in virtual currency are generally immutable, any investor losses may be irreversible. Although this is not a direct risk for investors in Virtual Currency Derivatives, it could impact the value of the underlying virtual currencies.

Hypothetical AQR Alternative Trend-Following Moderate Volatility Proforma Construction:

Proforma performance of the Hypothetical AQR Alternative Trend-Following Moderate Volatility Proforma is based on returns from the AQR Helix Strategy from January 2018 onwards. Performance is scaled from 14% to a 12% volatility target at each point in time. Additional Information for the AQR Helix Strategy is provided in the GIPS Composite Report.

Volatility adjusted performance has been scaled to match a different volatility target and is not the actual performance of the respective portfolio(s). All volatility scaled performance are hypothetical and for illustrative purposes only. Hypothetical data has inherent limitations, some of which are disclosed in the Appendix.

Colombia
This document does not constitute a public offer in the Republic of Colombia. The offer of the Fund is addressed to less than one hundred specifically identified investors. The fund may not be promoted or marketed in Colombia or to Colombian residents, unless such promotion and marketing is made in compliance with Decree 2555 of 2010 and other applicable rules and regulations related to the promotion of foreign funds in Colombia. The distribution of this document and the offering of the Fund may be restricted in certain jurisdictions. The information contained in this document is for general guidance only, and it is the responsibility of any person or persons in possession of this document and wishing to make application for the fund to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdiction. Prospective applicants for the Fund should inform themselves of any applicable legal requirements, exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile.

Mexico
The Fund have not been and will not be registered with the National Registry of Securities, maintained by the Mexican National Banking and Securities Commission and, as a result, may not be offered or sold publicly in Mexico. The Fund and any underwriter or purchaser may offer and sell the Fund in Mexico on a private placement basis to Institutional and Accredited Investors pursuant to Article 8 of the Mexican Securities Market Law.

Peru
IMPORTANT NOTICE: The Superintendencia del Mercado de Valores (SMV) does not exercise any supervision over this Fund and therefore the management of it. The information the Fund provides to its investors and the other services it provides to them are the sole responsibility of the Fund's distributor. This document is only for the exclusive use of institutional investors in Peru and is not for public distribution.

Regional Disclosures

Bahrain
This document has not been approved by the Central Bank of Bahrain which takes no responsibility for its contents. No offer to the public to purchase the Fund will be made in the Kingdom of Bahrain and this document is intended to be read by the addressee only and must not be passed to, issued to, or shown to the public generally.

Kuwait
This document is not for circulation to private investors nor to the public in Kuwait. The shares of the Fund have not been licensed for offering in Kuwait by the Kuwait Capital Markets Authority or any other relevant Kuwaiti government agency. The offering of the shares of the Fund in Kuwait on the basis of a private placement or public offering is, therefore, restricted in accordance with Law No. 7 of 2010 and the bylaws thereto (as amended). No private or public offering of the shares of the Fund is being made in Kuwait, and no agreement relating to the sale of the shares of the Fund will be concluded in Kuwait. No marketing or solicitation or inducement activities are being used to offer or market the shares of the Fund in Kuwait.

Oman: For Residents of the Sultanate of Oman
The information contained in this document neither constitutes a public offer of securities in the Sultanate of Oman as contemplated by the Law of Commercial Companies (Royal Decree 18/2019) or the Securities Law (Royal Decree 46/2022), nor does it constitute an offer to sell, or the solicitation of any offer to buy Non-Omani securities in the Sultanate of Oman as contemplated by Article 139 of the Executive Regulations to the Capital Market Law (issued by Decision No.1/2009). Additionally, this document is not intended to lead to the conclusion of any contract of whatsoever nature within the territory of the Sultanate of Oman.

Qatar
The shares in the Fund are only being offered to a limited number of investors who are willing and able to conduct an independent investigation of the risks involved in an investment in such fund. The promotional documentation does not constitute an offer to the public and is for the use only of the named addressee and should not be given or shown to any other person (other than employees, agents or consultants in connection with the addressee’s consideration thereof). The Fund has not been and will not be registered with the Qatar Central Bank or under any laws of the State of Qatar. No transaction will be concluded in Qatar and any inquiries regarding the Fund should be made to AQR Capital Management LLC and/or its affiliates.

New Zealand
This document is not a product disclosure statement for the purposes of the Financial Markets Conduct Act 2013 (the FMCA) and does not contain all the information typically included in such offering documentation. This offer of the Fund does not constitute a “regulated offer” for the purposes of the FMCA and, accordingly, there is neither a product disclosure statement nor a register entry available in respect of the offer. The Fund may only be offered in New Zealand in accordance with the FMCA and the Financial Markets Conduct Regulations 2014.

Firm-wide Disclosures

This presentation cannot be used in a general solicitation or general advertising to offer or sell interest in its Funds. As such, this information cannot be included in any advertisement, article, notice or other communication published in any newspaper, magazine, or similar media or broadcast over television or radio; and cannot be used in any seminar or meeting whose attendees have been invited by any general solicitation or general advertising.

Firm Information: AQR Capital Management, LLC ("AQR") is a Connecticut based investment advisor registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. AQR conducts trading and investment activities involving a broad range of instruments, including, but not limited to, individual equity and debt securities, currencies, futures, commodities, fixed income products and other derivative securities. For purposes of firm-wide compliance and firm-wide total assets, AQR defines the "Firm" as entities controlled by or under common control with AQR (including voting right). The Firm is comprised of AQR and its advisory affiliates, including AQR Arbitrage, LLC. Prior to January 1, 2022, AQR Arbitrage, LLC was formerly known as CNH Partners, LLC.

Upon request, AQR will make available a complete list and description of all Firm composites, a list and description of limited distribution pooled funds, and a list of broad distribution pooled funds. Policies for valuing portfolios, calculating performance, and preparing GIPS Reports are available upon request.

GIPS Compliance: AQR claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. AQR has been independently verified for the period August 1, 1998 through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not ensure the accuracy of any specific composite presentation.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Composite Characteristics: New accounts that fit a composite definition are added at the start of the first full calendar month after the assets come under management, or after it is deemed that the investment decisions made by the investment advisor fully reflect the intended investment strategy of the portfolio. A composite will exclude terminated accounts after the last full calendar month performance measurement period that the assets were under management. The composite will continue to include the performance results for all periods prior to termination. For periods beginning July 1, 2010 through February 28, 2015, AQR defined a significant cash flow as an external cash flow within a portfolio of 50%. Additional information is available upon request.

Other discretionary portfolios that trade similar securities and/or strategies as those portfolios included in this composite, but do not meet this composite's strategy criteria, are excluded from this composite and reside in one or more separate composites, which are available upon request.

Calculation Methodology: All portfolios are valued daily, weekly, intra-monthly or monthly as defined by Firm policy. The Modified Dietz calculation methodology is used when calculating monthly and intra-month returns. Mutual funds and UCITS are valued daily and performance is calculated on a daily basis. Gross of fees returns are calculated gross of management and performance fees, administrative and custodial costs, and net of transaction costs beginning January 1, 2010. Prior to January 1, 2010, gross of fees returns are gross of management and performance fees, and net of administrative, custodial, and transaction costs. Additional information regarding fees and the calculation of gross and net performance is available upon request.

The dispersion measure is the equal-weighted standard deviation of accounts in a composite for the entire year and is calculated using gross returns. Dispersion is not considered meaningful for periods shorter than one year or for periods during which a composite contains five or fewer accounts for the full period. The three-year annualized ex-post standard deviation measure is calculated using gross returns and is inapplicable when 36 monthly returns are not available.

Returns are calculated net of all withholding taxes on foreign dividends. Accruals for fixed income and equity securities are included in calculations. AQR's management or advisory fees are described in Part 2A of its Form ADV. In addition, AQR funds may have a redemption charge up to 2.00% based on gross redemption proceeds that may be charged upon early withdrawals. Consultants supplied with gross results are to use this data in accordance with SEC, CFTC and NFA guidelines.

Past performance is not an indication of future performance.

Net Return calculated based on 1.50% management fee and 20.00% performance fee (over Benchmark hurdle) per annum

Composite Description: The Helix - formerly Alternative Trends Composite (the "Composite") was created in January 2018. The investment objective of the Composite strategy (the "Strategy") is to achieve positive long-term returns through an active trend-following strategy applied to a diversified set of alternative assets. The underlying instruments of the strategy include but are not limited to credit default swap indices, developed and emerging interest rate swaps, emerging currencies, commodities that are not included in the major indices, volatility instruments, and equity factor portfolios. The Strategy is expected to exhibit little or no correlation to equity markets and other traditional investments and a moderate but diversifying correlation to traditional trend-following strategies. Accounts included pursue an ex-ante target volatility of 14% per annum, which is subject to change on a near term basis to best accommodate changing market conditions. The Composite is denominated in USD.

The Strategy uses derivatives, such as futures, forwards, and swaps, primarily to obtain exposure to markets, both long and short. The derivatives employed in the Strategy contain embedded economic leverage as the margin required to hold the contract is less than the notional economic exposure of the underlier. In addition, the Strategy may employ leverage through prime brokerage. In both cases, leverage is employed to increase the overall volatility of the Strategy to the desired level. Leverage will vary over time based on market conditions, risk environment, assets traded, and opportunity set. Additionally, the Strategy may use shorting and derivatives to hedge unwanted market exposure gained from portfolio holdings, such as exchange rate risk embedded into security holdings.

Benchmark: The Composite benchmark is the ICE BofA US 3-Month Treasury Bill Index (the "Benchmark"). The Benchmark measures the rate of return an investor would realize when purchasing a single U.S. 3-month treasury bill, holding it for one month, selling it, and rolling it into a newly selected issue at the beginning of the next month. The investments in the Composite vary substantially from those in the Benchmark. The index has not been selected to represent an appropriate benchmark to compare an investor's performance, but rather is disclosed to allow for comparison of the investor's performance to that of a certain well-known and widely recognized index.

Fees & Expenses: Composite net of fees returns are calculated by deducting the maximum model management or advisory fee AQR could charge from the composite monthly gross returns. AQR's asset-based fees for portfolios within the Composite may range up to 1.50% of assets under management and 20.00% performance fee (over Benchmark hurdle) and are generally billed monthly or quarterly at the commencement of the calendar month or quarter during which AQR will perform the services to which the fees relate. Composite assets may have been exposed to the impact of performance fees. This fee structure is applicable for AQR Alternative Trends Fund, L.P. and AQR Alternative Trends Offshore Fund Ltd., which had estimated expense ratios as of December 31, 2023 of 0.15% and 0.34% per annum, respectively.

Past performance is not an indication of future performance.
